Look in your owners manual (download the full version if necessary from the Honda OwnerLink) see what Maintenance Minder codes appear for those fluids. There should also be instructions on how to determine if those items are coming up. Generally, the MM will do well in keeping your CR-V up to spec. The exception is if it is driven sparingly.

Add the recommended Honda automatic transmission fluid until it starts to drip at the check hole. Remove the funnel and reinstall the cap for the filler hole. Install the 17mm bolt on the side of the transmission housing. Start the engine, check for any issues/leaks, and drive it for 15 minutes to bring it to normal operating temperature.
