world-renowned for comprising one of the most profound bodies of work ever written on the true nature of reality. In this perennial bestseller, Seth shows readers how we create our personal reality through our conscious beliefs about ourselves, others, and the world.

In this perennial bestseller, Seth challenges our assumptions about the nature of reality, and shows us how we create our personal reality through our conscious beliefs about ourselves, others, and the world. His message is clear: we are not at the mercy of the subconscious, or helpless before forces we cannot understand. “ We are Gods couched in creaturehood, ” Seth says, “ We are given the ability to form our experience as our thoughts and feelings become actualized. ” “ Seth was one of my first metaphysical teachers. He remains a constant source of knowledge and inspiration in my life. ” — Marianne Williamson “ I would like to see the Seth books as required reading for anyone on their spiritual pathway. The amazing in-depth information in the Seth books is as relevant today as it was in the early ’ 70s when Jane Roberts first channeled this material. ” — Louise Hay

Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs. But how do our realities merge and combine to form mass reactions such as the overthrow of governments, the birth of a new religion, wars, epidemics, earthquakes, and new periods of art, architecture, and technology? In this pioneering work,

Seth explores the connection between personal beliefs and world events. He pinpoints the unconscious, and often negative, beliefs pervading science and religion, medicine and mythology, and offers thought-provoking reflections on Darwinism, Freudianism, religions, cults, and medical beliefs. With fascinating implications, Seth asserts that the personal impulses we are often taught to see as dangerous, chaotic, or contradictory, are instead crucial to the best interests of the species and the natural world, for they lead us to live “not only as loving caretakers, but as partners with other species.” “Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probably futures the most promising events....” — Jane Roberts, *Speaking for Seth*

Seth, speaking exclusively through Jane Roberts, reveals a startling new concept of self, answering questions about the secret language of love, human sexuality, the real origins and incredible powers of dreams, and how we choose our physical death — sometimes years in advance. For the first time, Seth explains:

- Why love is the basic language from which all others spring
- The bisexual nature of humanity and its biological and spiritual importance
- The true basis of homosexuality and lesbianism — along with their private and social effects
- The benefits of recalling our dreams and consciously participating in them
- How dreams can prevent chronic illnesses by providing important therapeutic information
- Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential.

“The psyche is a gestalt of aware energy in which your own identity

resides, inviolate, yet ever-changing as you fulfill your potentials. You are your psyche 's living expression, its human manifestation. Yet you allow yourselves often to become blind to brilliant aspects of your own existence. ” — Jane Roberts, Speaking for Seth

One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential, and the concept that we all create our own reality according to our individual beliefs. Having withstood the test of time, it is still considered one of the most dynamic and brilliant maps of inner reality available today. “ The Seth books present an alternate map of reality with a new diagram of the psyche . . . useful to all explorers of consciousness. ” — Deepak Chopra “ Seth was one of my first metaphysical teachers. He remains a constant source of knowledge and inspiration in my life. ” — Marianne Williamson “ I would like to see the Seth books as required reading for anyone on their spiritual pathway. In The Magical Approach, Seth invites us to look at the world through another lens — a magical one. Seth reveals the true, magical nature of our deepest levels of being, and explains how we have allowed ourselves to become inhibited by our own beliefs and conventional thinking. The Magical Approach teaches us how to live our lives spontaneously, creatively, and according to our own natural rhythms. It helps us to discover and tune into our natural, instinctive behavior. By applying the principles in this book, readers will learn to trust their impulses and discover the highest expression of their creativity. “ We are speaking about an approach to life, a magical or natural approach to life that is man ’ s version of the animal ’ s natural instinctive behavior in the universe. ” — Jane Roberts, Speaking for Seth
