Relationship building will be a key area of the text and relevant counselling skills for achieving this in social work settings such as empathic responding will be illustrated in detail together with examples of dialogue and analysis of interventions.

Praise for the first edition: 'The content of the book is excellent.... The strength lies in its detailed application of ideas to practice. The use of the case material to illustrate application is excellent and works well.' - Helen Cosis-Brown, University of Middlesex This new edition of Counselling Skills for Social Work argues that good counselling skills are at the heart of effective social work practice. Building on the success of the first edition, this core textbook brings a range of therapeutic models, with their theoretical underpinnings and skills, directly into a social work context. By looking at how the underlying theory can be applied to professional practice, chapters identify the key skills which can be employed for the most effective social work intervention. Key features of the book include: - a practical skills-based approach; - a focus on service-user experiences and arange of case-studies drawn from a variety of ' real-life' settings; - a new chapter dedicated to counselling young people; - chapter content is linked to the most recent NOS and GSCC guidelines structuring training and practice; - end-of-chapter Reflective Questions and Tips for Practice summarising the key theoretical concepts and their applications. Written in a lively and engaging style this updated new edition will be an invaluable text for undergraduate students in social work. It will also be useful for qualified practitioners to enhance understanding of communication and the process of change through the medium of counselling skills.

Counselling skills are very powerful. Really listening and providing compassionate empathy without judging is a core part of social work practice with service users. This book provides a theoretically informed understanding of the core skills required to provide counselling interventions that work. It provides detailed discussion of three core skills which are identified as: talking and responding, listening and observing and thinking. Over 11 chapters these core skills are described in terms of what they mean, how they can be learned and developed, how they can be used and misused and, most importantly, how specific skills can be employed in a coherent and evidence-informed counselling approach. Loughran also looks in detail at the skills required to deliver interventions consistent with three approaches: Motivational Interviewing, Solution-Focused Work and Group work. Illustrative case examples and exercises offer further opportunities for reflection and exploration of self-awareness as well as for practising and enhancing skills development, thus making the book required reading for all social work students, professionals looking to develop their counselling skills and those working in the helping professions more generally. Terms such as social worker, therapist and counsellor will be included as they inform counselling skills in social work.

This practical book enables students to develop key counselling skills that can help to enhance their practice and help to place the service-user at the centre of the decision making process. Relationship building will be a key area of the text and relevant counselling skills for achieving this in social work settings such as empathic responding will be illustrated in detail together with examples of dialogue and analysis of interventions. The role and importance of self-awareness will be discussed together with various exercises to develop the readers' own knowledge of themselves.

· In what ways is counselling relevant to contemporary social work? · How do counselling skills integrate with social work roles and responsibilities? This book examines these skills and their applicability, drawing from social work and counselling theories and methods using clear, practical examples. Skills are discussed with reference to social work knowledge and values illustrating how, when used competently, contextually and sensitively they can appropriately underpin good social work practice. Questions and activities for self development are linked to the practices discussed. This new edition of Counselling Skills in Social Work Practice has been thoroughly revised to reflect the National Occupational Standards for social work which identify the importance of communication skills and a developmental understanding of people in their social contexts. The chapters are linked to the six key roles for social work practice. This book builds on the strengths of the first edition, as well as addressing the challenges of practice in relevant legislative and policy contexts. The book includes: · Evidence of how the competencies which underpin counselling practice are directly transferable to effective social work practice · Practical advice on communication skills · Examples of how to build effective working relationships; a whole chapter is now devoted to the specific skills required for working within inter-agency and multi-disciplinary teams This book is key reading on the subject of ethical and effective social work for those teaching, studying or practising in the field.

This book supports and develops the communication and interviewing skills of professional practitioners and student practitioners in social work, counselling, and the health professions. Combining work on personal and social constructs, the search for meaning, and ecological theory, this book both provides an integrated discussion of practice and presents a balanced approach when discussing psychological, biological, and social influences on individual well-being. Furthermore, it emphasises the influence of social contexts on behaviour and well-being, as well as valuing and encouraging the application of practitioners' prior experience and learning (APEL) to new knowledge and understanding. Containing a range of practice examples to stimulate learning, this book promotes a collaboration between the professions, and welcomes the contributions of people who use services, patients, and clients. Communication and Interviewing Skills for Practice in Social Work, Counselling and the Health Professions will be of interest to all undergraduate and postgraduate social work students, as well as new and experienced professional health care practitioners.

Practice Skills in Social Work and Welfare has established itself as the essential text to prepare students for the wide-ranging challenges they will face in today's human service sector. This new third edition continues the text's core strength of combining grounded theory with practical examples to build the reader's confidence and expertise in key areas of practice. Part I outlines the anti-oppressive and strengths-based practices that underpin the book's approach and provides the context for learning practice skills in a group setting, during community development projects and with individuals. Part II focuses on developing effective relationships with clients, illustrating through realistic scenarios how social work and human service workers can apply their practice skills in a range of settings. In Part III the essential elements of client assessment are explored, including risk assessment and cross-cultural perspectives. Issues surrounding intervention are examined in Part IV from working with families and groups to challenging constructively and safely, while research, evaluation and facilitating closure are covered in the final part. This third edition is fully revised and updated, and features new material on using information technology, working with Indigenous Aboriginal and Torres Strait Islander peoples and Maori, and engaging with families in the statutory system. 'The main strength of the book is the consistency of its themes throughout the text.' - Karen Heycox in Australian Social Work

This practical bestseller from leading expert Richard Nelson-Jones introduces the essential counselling skills for the helping professions. Now in its fourth edition, it guides you through the key skills for helping work across a range of settings, such as counselling, nursing, social work, youth work, education and many more. It explores 17 key counselling skills, including: -asking questions -monitoring -facilitating problem solving -negotiating homework Each chapter describes a particular skill, illustrates it using clear case examples across a range of settings and then helps you consolidate and practise what you've learned through a set of creative activities. Further chapters cover professional issues including a new chapter on managing crises and chapters on ethical dilemmas, supervision, working with diversity and more.

This counselling skills book will equip you with the necessary knowledge, skills and qualities to work with people in a range of different roles and settings. It defines counselling skills and introduces key skills including: listening and responding skills, empathy and different models, tools and techniques. Further chapters explore the importance of skills practice and self-awareness; ethics, boundaries and confidentiality; working remotely; working with difference and diversity, and different professional roles. Throughout, case studies show you how these skills can make a difference in practice, while exercises, including a student journal feature, help you reflect on your own attitudes to enhance your reflective practice. This book is an accessible guide to the BACP counselling skills competence framework for trainee counsellors and those using counselling skills as part of another professional role.

Essential Counseling Skills: Practice and Application Guide offers practical, step-by-step guidance for developing and applying the skills necessary for careers in counseling. Using the metaphor of a professional journey, this guide provides commentary and background information throughout, as readers are directed in their development of such key counseling skills as empathy, building relationships, case conceptualization, and facilitating change. Deep reflection is further encouraged at every key stage through the integration of theory with a wealth of applied exercises and examples.

As a course book or an aide to individual learning this book contains a wealth of information and guidance based on years of study and practice. It is easy to use because it is clearly signposted. I particularly like the way the author addresses the range of issues a student needs to consider before embarking on a counselling course. The structure of building block by block, skill by skill simplifies assessment and Psychotherapy Journal Good counselling skills are the key to effective helping relationships. Introduction to Counselling Skills, Second Edition is designed to help readers acquire and develop these skills, using an easy-to-follow, three-stage model. Drawing on many years experience as a counsellor, trainer and writer, Richard Nelson-Jones describes in detail each stage in the helping process and gives examples to show how the skills work in practice. The examples also demonstrate the variety of contexts in which counselling skills are commonly used, as well as the diversity of issues and problems they can help to address. The book covers: } what counselling skills are } how to conduct sessions } ways to clarify and expand your understanding } how to improve your listening skills } ethical skills. Introduction to Counselling Skills, Second Edition is full of practical features designed to aid learning, including activities related to the particular skill being described, learning outcomes, examples, summaries and a glossary of key terms. For this, the Second Edition, the book has been fully up-dated and new material has been added on the diversity of helpers and clients, the use of training groups and supervision. Combining a clear explanation of skills, with a host of practical activities, Introduction to Counselling Skills, Second Edition is the ideal text for introductory courses in counselling skills, counselling and many other professional areas including health care, management, education and social work.
