Focus on Reading and Writing: Essays provides thorough, integrated instruction on reading and writing essays and includes many effective features to help students make the connection between the reading and writing processes, including TEST--Kirszner and Mandell's simple and effective reading and writing tool designed to help students gauge their progress. Kirszner and Mandell believe that students learn best when they try their hand at a new concept first with their own work. That's why they designed the Focus on Reading and Writing strand throughout each chapter. The strand first prompts students to read and write, then learn essential concepts, and ultimately apply those concepts while re-reading and revising. With a complete grammar guide, supplementary online grammar practice through LaunchPad Solo for Readers and Writers, and 23 professional reading selections, this comprehensive text gets students reading, writing, and thinking critically in preparation for academic, career, and life success. The Second Edition strengthens and further integrates reading coverage throughout, helping improve students' comprehension and ability to think critically as they read. An updated TEST feature now applies equally to understanding and analyzing readings as well as developing, drafting, and revising essays, a new annotated model has been added in Chapter 1, and new information has been added on identifying and formulating implied main ideas.

Focus on Writing: Paragraphs and Essays is a clear, inviting text that engages students visually, demonstrates concepts with color and highlighting, and offers students the support and coverage they need to write well in college. Focus on Writing offers the unique self-assessment tool TEST (Topic sentence, Evidence, Summary statement, and Transitions), which works clearly and simply to motivate students and empowers them to become capable writers and self-editors. In this revision, best-selling authors Laurie Kirszner and Stephen Mandell provide more support for moving from paragraph to essay, more step-by-step coverage of the writing process, and more diverse examples, exercises, and models, making the text both student-friendly and thorough.

When a dissertation crosses my desk, I usually want to grab it by its metaphorical lapels and give it a good shake. "You know something?" I would say if it could hear me. "Now tell it to us in language we can understand!" Since its publication in 2005, From Dissertation to Book has helped thousands of young academic authors get their books beyond the thesis committee and into the hands of interested publishers and general readers. Now revised and updated to reflect the evolution of scholarly publishing, this edition includes a new chapter arguing that the future of academic writing is in the hands of young scholars who must create work that meets the broader expectations of readers rather than the narrow requirements of academic committees. At the heart of From Dissertation to Book is the idea that revising the dissertation is fundamentally a process of shifting its focus from the concerns of a narrow audience (a committee or advisors) to those of a broader scholarly audience that wants writing to be both informative and engaging. William Germano offers clear guidance on how to do this, with advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. Germano draws on his years of experience in both academia and publishing to show writers how to turn a dissertation into a book that an audience will actually enjoy, whether reading on a page or a screen. Germano also acknowledges that not all dissertations can or even should become books and explores other, often overlooked, options, such as turning them into journal articles or chapters in an edited work. With clear directions, engaging examples, and an eye for the idiosyncrasies of academic writing, From Dissertation to Book reveals to recent PhDs the secrets of careful and thoughtful revision: a skill that will be truly invaluable as they add "author" to their curriculum vitae.

This first-year composition rhetoric-reader uses a Writing about Writing (WAW) approach and a conversational style to help students engage in threshold concepts and transfer what they know about writing to new situations. Each chapter asks a key question such as "Why Write?" or "What Is the Rhetorical Situation and Why Should I Care about It?" Preliminary answers to the chapter question are provided in accessible prose, and these initial ideas are supplemented with a selection of three or four readings and a list of recommended online texts. Prompts for informal and formal writing projects keep the focus on writing and help students apply writing studies scholarship to their own lives in meaningful ways. A companion website includes recommended WAW resources, assignment supports, and links to additional readings: sites.broadviewpress.com/focusonwriting

The second edition of Writing That Makes Sense takes students through the fundamentals of the writing process and explores the basic steps of critical thinking. Drawing upon over twenty years of experience teaching college composition and professional writing, David S. Hogsette combines relevant writing pedagogy and practical assignments with the basics of critical thinking to provide students with step-by-step guides for successful academic writing in a variety of rhetorical modes. New in the second edition: "Expanded discussion of how to write effective thesis statements for informative, persuasive, evaluative, and synthesis essays, including helpful thesis statement templates. "Extensive templates introducing students to conventions of academic discourse, including integrating outside sources, interacting with other writers' ideas, and dialoguing with multiple perspectives. "Examples of academic writing from different disciplines illustrating essay titles, abstracts, thesis statements, introductions, conclusions, and voice. "Expanded discussion of voice in academic writing, including an exploration of active and passive voice constructions in different disciplines and tips on how to edit for clarity. "A new chapter on writing in the disciplines. "Updated sample student papers. "New readings with examples of opposing views and multiple perspectives.

The definitive reference in the field, this volume synthesizes current knowledge on writing development and instruction at all grade levels. Prominent scholars examine numerous facets of writing from sociocultural, cognitive, linguistic, neuroscience, and new literacy/technological perspectives. The volume reviews the evidence base for widely used instructional approaches, including those targeting particular components of writing. Issues in teaching specific populations--including students with disabilities and English learners--are addressed. Innovative research methods and analytic tools are clearly explained, and key directions for future investigation identified. New to This Edition "Chapters on genre instruction, evaluation and revision, argumentative writing, computer-based instruction, and professional development. "Chapters on new literacies, out-of-school writing, translation, and self-regulation. "Many new topics and authors, including more international perspectives. "Multiple chapters connect research findings to the Common Core writing standards. See also the editors' Best Practices in Writing Instruction, Second Edition, an accessible course text and practitioner's guide.

Analyzes interviews with students, teachers, and administrators to develop a new set of literacies essential for student success in the digital age. "To read John's work is to take on the role of a patient listener " A book, like a piece of music, is scored for time, and I feel Time to Write is scored adagio." I believe that Time to Write can be read as a critique of [the] time-chopping approach to education! and an argument for presence, for being fully open to experience, for being there " To do good work, we must enter something like "island time" or what John calls "existential time" or what is sometimes called "flow" when we lose, at least temporarily, a sense of clock time." " from the Foreword by Thomas Newkirk Twenty-five years ago, John Sylvester Lofty studied the influence of cultural time values on students' resistance to writing instruction in an isolated Maine fishing community. For the new edition of Time to Write, Lofty returned to the island to consider how social and educational developments in the intervening years may have affected both local culture and attitudes toward education. Lofty discovered how the island time values that previously informed students' literacy learning have been transformed by outside influences, including technology, social media, and the influx of new residents from urban areas. Building on the ethnographic findings of the original study, the new edition analyzes the current conflict between the digital age time values of constant connections and instant communication, and those of school-based literacy. Lofty examines the new literacies now essential for students in a technologically connected world, both those who aspire to continue the traditional island work of lobster fishing, and for the many who now choose to pursue other careers and attend college on the mainland.
