Personal habits and business fundamentals that will help you in every walk of life How to choose the business idea or ideas that best fit you and your personality How to determine the viability of those ideas Concrete steps you need to take to make your business a reality

In this science-based book, registered dietitian Abby Langer tackles head-on the negative effects of diet culture and offers advice to help you enjoy food and lose weight without guilt or shame. There are so many diets out there, but what if you want to eat well and lose weight without dieting, counting, or restricting? What if you want to love your body, not punish it? Registered dietitian Abby Langer is here to help. In her first-ever book, Abby takes on our obsession with being thin and the diets that are sucking the life, sometimes literally, out of us. For the past twenty years, she has worked with clients from all walks of life to free them from restrictive diets and help them heal their relationship with food. Because all food is good for us—yes, even carbs and fats. All diets are bad. Diets are like Band-Aids for what's really bothering us: Although we might lose weight, they prey on our insecurities, rob us of time and money, and often leave us with the same negative views of food and our bodies that we've always had. When the weight comes back, we still haven't solved the real issues behind our eating habits—our “why.” This book is different. Chapter by chapter, Abby helps readers uncover the “why” behind their

desire to lose weight and their relationship with food, and make lasting, meaningful change to the way they see food, nutrition, themselves, and the world around them. In this book, you'll learn how guilt and shame affect your food choices, how fullness and satisfaction aren't the same feeling, why it's important to quiet your "diet voice" and enjoy food, and what the best way to eat is according to science. Empowering, inclusive, smart, and a must-have, Good Food, Bad Diet will give you the tools to reject diets, repair your relationship with food, and lose weight so you can move on with your life.

Dispels myths and presents scientific facts linking what we eat to how we feel, including the latest findings connecting nutrition to various disorders and offering practical dietary advice

Whether you've never picked up a knife or you're an accomplished chef, there are only four basic factors that determine how good your food will taste. Salt, Fat, Acid, and Heat are the four cardinal directions of cooking, and they will guide you as you choose which ingredients to use and how to cook them, and they will tell you why last minute adjustments will ensure that food tastes exactly as it should. This book will change the way you think about cooking and eating, and help you find your bearings in any kitchen, with any ingredients, while cooking any meal. --

When we constantly feel hungry and overeat, sometimes it's not about the food. In this important book, a weight management expert presents the proven-effective Anchor Weight Management System to help people finally end their struggles with emotional eating and weight gain. For over fifty years, nutritional and medical scientists have dissected the problem of obesity. The result of this half-century of investigation has been a series of recommendations about what and how much to eat, and an unintended

consequence is that we've been deprived of the joy of eating. From low-fat diets to the no-carb craze, the market has been continually flooded with one assortment of fad products and diets after another. So, when does it end? If you're struggling with emotional overeating and are trying to lose weight, you should know that you don't need to deny yourself certain foods. In *The Emotional Eating Workbook*, you'll learn about the real psychological needs that underlie your food cravings, how to meet those needs in positive ways, be mindful of your body, and find the deep satisfaction many overeaters seek in food. It's not about food. It's about how food is used to self-soothe, numb ourselves against the pain of living, or self-medicate in coping with stress and unresolved emotions. The Anchor Program™ approach detailed in this book is not about dieting. It's about being anchored to your true, authentic self. When you find your unique anchor, you will relate better to your body, you'll know intuitively how to feed your body, and you'll reach the weight that's right for you.

By showing that kitchen skill, and not budget, is the key to great food, *Good and Cheap* will help you eat well—really well—on the strictest of budgets. Created for people who have to watch every dollar—but particularly those living on the U.S. food stamp allotment of \$4.00 a day—*Good and Cheap* is a cookbook filled with delicious, healthful recipes backed by ideas that will make everyone who uses it a better cook. From Spicy Pulled Pork to Barley Risotto with Peas, and from Chorizo and White Bean Ragù to Vegetable Jambalaya, the more than 100 recipes maximize every ingredient and teach economical cooking methods. There are recipes for breakfasts, soups and salads, lunches, snacks, big batch meals—and even desserts, like crispy, gooey Caramelized Bananas. Plus there are tips on shopping smartly and the minimal equipment needed to cook successfully. And when you buy one, we give one! With every copy of *Good and Cheap* purchased, the publisher will donate a free copy to a person or
