International Marketing Compact offers a new perspective in teaching international marketing. The authors address issues in a novel way by bringing in cases from advanced and emerging markets. In this connection they also discuss technological requirements of the 21st century and how these developments necessitate a change in looking at international marketing issues. The individual chapters follow the necessary steps to develop and implement projects successfully in the international market place. The knowledge, which is provided for both students and practitioners, is well balanced in terms of theoretical input and managerial application. This is the result of numerous examples presented in this book not only from Europe, but also from other markets throughout the world. The book is addressed to various student groups: those in a bachelor's program studying business, economics and

international trade can well use the book to gain a broad and current perspective on trends in international marketing theory and practice. Those in a master's program for business, economics and international trade can use the book as a guide for building a theoretical background for their term projects and the case studies they analyze. Those at the PhD level in the same or similar disciplines can take a compact look at 21st century international marketing. It is also beneficial for international students, for example, for Erasmus students at European universities, who are building a common international marketing background and perspective that they can take back to their studies at their home universities.

Written by a well-seasoned team in the international business area, this book provides a truly global perspective of international business with a strong theory base, with a managerial emphasis and a focus on the impact of technology on global business.

Fundamentals of International Business 1st Asia Pacific Edition is an introductory international business text ideal for use at the undergraduate level. While providing a broad overview of international business as it is conducted around the globe, a key differentiating theme of the text is its focus on the rapidly growing Asian region. This focus is achieved through analysing the increasing efforts of Australian, New Zealand, European and United States firms in conducting international business in these Asian markets, as well as the activities of organisations from Australian, New Zealand and Asian countries expanding into the lucrative markets of the United States and Europe. Today's fast-paced, competitive and increasingly globalised business environment presents both new challenges and opportunities for international business managers. Fundamentals of International Business 1st Asia-Pacific Edition provides readers with the key knowledge and practical skills necessary to successfully conduct international business in our region, namely: An appreciation of the cultural differences of markets in the Asia-Pacific and how to deal with this diversity Broad understanding of the range of economic, political and legal issues that can affect the success of international business ventures Literacy in financial terminology and awareness of the impact of international financial markets and instruments on business operations Information on government assistance programs for export development An evaluation of alternative market entry strategies International trade trends An outline of the international marketing, supply chain and human resource management issues likely to be encountered This visually stunning, full colour text makes extensive use of maps, tables, graphs and charts to present key concepts and information clearly and concisely. Its solid theoretical base coupled with a wealth of practical examples and activities makes it the ideal resource for contemporary international business managers, students and lecturers in the Asia-Pacific region. Features in each chapter: Learning Objectives: Each chapter of the text is structured around learning objectives. These numbered objectives are identified at the start of the chapter, explained in detail within the chapter, and then concisely addressed in the summary section at the end of the chapter. Opening Case Studies: The international business activities of a real world organisation are featured at the start of each chapter. Spotlights: These boxed features within each chapter offer concrete examples of the issues confronting international business decision-makers. Culture Clues: Interspersed throughout the text are 'Culture Clues' boxed features that provide practical tips and insights into different cultures, highlighting the diversity of markets in the Asia-Pacific region. Fast Facts: Presented in a Q and A format, these facts provide interesting 'one liner' style key information about various Asia-Pacific markets. Marginal Glossary: An extensive marginal glossary makes it easier for students to locate and understand key terms. The end-of-the-book glossary contains all key terms and definitions in a convenient alphabetical form. Maps: To increase the geographic literacy of students, the text contains excellent maps that provide the lecturer with the means to demonstrate concepts visually, such as political blocs, socioeconomic variables, and transportation routes Closing Case Studies: Key concepts from each chapter are explored by analysing the experiences of real world organisations. Review Questions and Critical Skill Building Activities: The review questions and critical skill building activities are complementary learning tools that allow students to check their understanding of key issues, to think beyond basic concepts and apply their knowledge. On the Web Activities: Each chapter contains two to three Internet exercises where students are asked to explore the Web and further research important international business topics.

Over the past two decades, the face of the world consumer has truly changed. Goods are more available, information about these goods is more open and accessible, and the ability to buy these goods from any corner of the earth has become possible. As a result, international marketing is more important now than ever before. In this book, Josh Samli explores the challenges facing modern international marketers. He explains what it is to have successful communication with the target market: using social media to share consistent information about products and services, communicating directly with culture-driven consumers who already communicate online amongst themselves and with competitors, and mastering people-to-people communication with both privileged and non-privileged consumers. Any company dealing with international marketing must learn how to handle these new challenges in order to survive in the 21st century.

"Strategic International Management" takes a global perspective and covers the major aspects of international business strategies, the coordination of international companies and the particularities of international value chain activities and management functions. The book provides a thorough understanding of how Production & Sourcing, Research & Development, Marketing, Human Resource Management and Controlling have to be designed in an international company and what models are available to understand those activities in an international context. The book offers 20 lessons that provide

a comprehensive overview of all key issues. Each lesson is accompanied by a case study from an international company to facilitate the understanding of all important factors involved in strategic international management.

Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships – except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.
