This book provides a wealth of detailed information that collectors, investors, and restorers of imported cars will not find in any other book. This massive volume spans the marques of imported vehicles. The list includes such familiar names as Alfa Romeo, Aston Martin, Bentley, Citroen, Jaguar, Lamborghini, Porsche, Rolls-Royce, Saab, and Volkswagon. Also in these pages, you'll find details on such lesser-known yet no less intriguing marques as Abarth, DAF, Frazer Nash, Humber, Iso, Nardi, Panhard, Peerless, Sabra and Skoda. The book also highlights model changes and corporate histories and provides value information on the most popular models of imported cars.

This is an engine rebuilding and modification guide that includes sections on history, engine specs, disassembly, cylinder block and bottom end reconditioning, cylinder heads and valvetrain reconditioning, balancing, step-by-step engine reassembly, torque values, and OEM part numbers for the popular Chevy LS series of engines.

Unlock the secrets to gorgeous, expressive, unforgettable color! Finding color combinations that not only work but excite the eye is one of the greatest challenges artists face. This updated and expanded 30th anniversary edition of the North Light classic Exploring Color teaches artists of all mediums and skill levels how to use and control color in their artwork and shows how exhilarating and enjoyable the ride can be. Popular art instructor and best-selling author Nita Leland will help you take any artwork you make to new color heights. Memorable paintings from more than 30 contributing artists are inside to will inspire you, along with 75+ hands-on exercises, 8 step-by-step demonstrations and countless nuggets of color knowledge--all in your own private workshop! Learn how to master color mixing, assemble the perfect palette for your artistic goals, select just the right color scheme, and communicate color in a way that elevates your designs way beyond the ordinary. Start a handy journal to keep track of your discoveries, with customized mixtures, color wheels, reference charts and other tools designed to uncover your color personality and help you work with color more efficiently. Nita knows that the quest for perfect color can be fun, and it can be yours. So stop guessing, and start exploring! "Beautiful color is no happy accident. Color can be learned." --Nita Leland

To extract maximum performance, an engine needs an efficient, well-designed, and properly tuned exhaust system. In fact, the exhaust system's design, components, and materials have a large impact on the overall performance of the engine. Engine builders and car owners need to carefully consider the exhaust layout, select the parts, and fabricate the exhaust system that delivers the best performance for car and particular application. Master engine builder and award-winning writer Mike Mavrigian explains exhaust system principles, function, and components in clear and concise language. He then details how to design, fabricate, and fit exhaust systems to classic street cars as well as for special and racing applications. Air/exhaust-gas flow dynamics and exhaust system design are explained. Cam duration and overlap are also analyzed to determine how an engine breathes in air/fuel, as the exhaust must

efficiently manage this burned mixture. Pipe bending is a science as well as art and you're shown how to effectively crush and mandrel bend exhaust pipe to fit your header/manifold and chassis combination. Header tube diameter and length is taken into account, as well as the most efficient catalytic converters and resonators for achieving your performance goals. In addition, Mavrigian covers the special exhaust system requirements for supercharged and turbocharged systems. When building a high-performance engine, you need a high-performance exhaust system that's tuned and fitted to that engine so you can realize maximum performance. This comprehensive book is your guide to achieving ultimate exhaust system performance. It shows you how to fabricate a system for custom applications and to fit the correct prefabricated system to your car. No other book on the market is solely dedicated to fabricating and fitting an exhaust system in high-performance applications.

This is a pre-1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts - the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide.

Eleanor Smith's Hull House Songs: The Music of Protest and Hope in Jane Addams's Chicago reprints Eleanor Smith's 1916 folio of politically engaged songs, together with interdisciplinary critical commentary from sociology, history, and musicology.
