File Type PDF Nikon S4

introduced on the Nikon F camera in 1959, and features a three lug bayonet mount with a 44 mm throat and a flange to focal plane distance of 46.5 mm. The company continues to use variations of the same lens mount specification for its film and digital SLR cameras. The Nikon F-mount is

File Type PDF Nikon S4

one of only two SLR lens mounts (the other being the Pentax K mount) which were not abandoned by their associated manufacturer upon the introduction of autofocus, but rather extended to meet new requirements related to metering, autofocus, and aperture control. The large variety of

File Type PDF Nikon S4

F-mount compatible lenses makes it the largest...

This book is much more than a history of the high-quality cameras and lenses that have made Nikon a renowned name in the world of photography. It is also a chronicle of

File Type PDF Nikon S4

the birth of this Japanese manufacturer and the way in which it has evolved to keep abreast of advances in technology and ahead of the competition. Profusely illustrated throughout with rare archive material from around the world, and augmented by a feast of original

File Type PDF Nikon S4

pictures of the cameras in use, the text is enhanced by extensive appendices containing a wealth of information for the avid Nikon collector.
