The interpenetration of the cosmic (the puppeteer-God) and the ephemeral (the puppet-creature) is at the heart of this first art as illustrated, for example, in a passage from the Bhagavad Gita, where Krishna speaks of “puppets in a game of shadows” manipulated by God, or in the Book of Cabolek, probably written by the poet Yasadipura I ...

The book narrates the biography of Lord Ram with exact dates of important events, depicting corresponding sky views and weaving other supporting scientific evidences into the story told by Maharshi Valmiki. It moves Ramayan from the domain of mythology to the realm of History.The book provides credible and scientific answers to the questions —whether Shri Ram was actually born? Whether he had actually travelled from Ayodhya to Lanka to save millions of noble people from the atrocities of ignoble? Whether he had really set the example of an ideal welfare state? Methodology adopted is path breaking and futuristic! All astronomical references were extracted sequentially from Ramayan. The corresponding skyviews were generated using Plane-tarium & Stellarium softwares. Readers can enjoy watching how the sky looked bright with five planets in their exalted positions when Shri Ram was born. Evidences from archaeology & archaeobotany, geology & oceanography, remote sensing & genetic studies have also been beautifully woven into the story to support this astronomical date sequence. Beautiful pictures of Setu, Sea Level Curve and of many excavated articles mentioned in Ramayan have been made a part of the book.
