On the history of selected Oromo heroes and heroines.

This was first published in English as "Prison of Conscience". It is now presented in Afaan Oromo with some addition and expansion. For the Oromo nation the more than a hundred years of Amaaraa Ethiopian occupation had been a hell. Killings, tortures and disappearances were common place. Their land was grabbed, their culture erased, their language suppressed, they were turned to serfs and their identity was denied, their freedom deprived. Relentless struggle was waged to reverse the situation and much had been achieved towards it. This book is about experience of a prisoner who went under the most inhuman treatment in torture rooms

and isolated from the world for about ten years. And also, about empire Ethiopia that knows no human rights and even human conscience was kept under suppression. All about the empire and Darg prison are contained in two volumes of this book in brief. The said prisoner had a chance to revisit Maa'ikalaawii under EPRDF government that replaced the Darg. List of prisoners of the previous detention is also given as appendix. Read it and there are more to discover. This publication is the second edition of the Oromo Textbook. It is designed to teach the Oromo language to those who can speak the language but are unable to read it; for those children who were born and live outside their homeland; and for those who are interested in learning one of the major languages of Africa. The Oromo language is spoken by close to 40 million people in Ethiopia and northern Kenya and is the second or third largest language in Africa. It is a testament to the resilience of the Oromo

language and how it survived over a century of Abyssinian onslaught and suppression. By reading this handbook one can grasp aspects of Oromo culture, systems of thought the principle of social organization and the art of communication. Rare among Oromo educational material, this volume reads smoothly; from learning the sounds of Oromo alphabets also known as qubee, to reading, and understanding the Oromo language. This work is distinct because it brings out the Oromo oral tradition. It is loaded with specific ways Oromos learned, thought, and preserved their language and culture, the essence of their Orommumma (Oromomness). This book strives to fill the void of Oromo educational material not only in North-America, but also in Oromia (Ethiopia), where teaching and

learning the Oromo language outlawed by successive Ethiopian regimes and not sufficiently developed under the current government. This book will undoubtedly emerge as a conversation and discussion piece in the learning and teaching of the Oromo language, Oromo history and tradition of the Oromo people.

In *Children of Hope*, Sandra Rowoldt Shell traces the lives of sixty-four Oromo children who were enslaved in Ethiopia in the late-nineteenth century, liberated by the British navy, and ultimately sent to Lovedale Institution, a Free Church of Scotland mission in the Eastern Cape, South Africa, for their safety. Because Scottish missionaries in Yemen interviewed each of the Oromo children shortly after their liberation, we

have sixty-four structured life histories told by the children themselves. In the historiography of slavery and the slave trade, first passage narratives are rare, groups of such narratives even more so. In this analytical group biography (or prosopography), Shell renders the experiences of the captives in detail and context that are all the more affecting for their dispassionate presentation. Comparing the children by gender, age, place of origin, method of capture, identity, and other characteristics, Shell enables new insights unlike anything in the existing literature for this region and period. Children of Hope is supplemented by graphs, maps, and illustrations that carefully detail the demographic and geographic layers of the children ' s origins and lives after capture. In this way, Shell honors the individual stories of

Studies on Islam in Ethiopia have long been neglected although Islam is the religious confession of almost half of the Ethiopian population. The essays focus on the following topics: Islamic Principalities in Southeast Ethiopia between the 13th and 16th Century * Notes on the Islamization and the Muslim Shrines of the Harar Plateau * The Sanctuary of Shaikh Husayn and the Oromo-Somali Connections in Bale * The Islamization of the Arsi-Oromo; Medieval Muslim Survivals as a Stimulating Factor in the Re-Islamization of Southeastern Ethiopia. The essays are based on the study of written records and on field research in southern parts of

"This book reveals the many creative solutions an African society found for problems that people encounter when they try to establish a democratic system of governing their affairs. In much of what has been written about Africa ... Little is ever shown of indigenous African democratic systems, under which there is distribution of authority and responsibility across various strata of society, and where warriors are subordinated to deliberative assemblies, customary laws are revised periodically by a national convention, and elected leaders are limited to a single eight-year terms of office and subjected to public review in the middle of their term. All these ideals and more are enshrined

in the five-century old constitution of the Oromo of Ethiopia, which is the subject matter of this book. In this book, Legesse brings into sharp focus the polycephalous or "multi-headed" system of government of the Oromo, which is based on clearly defined division of labor and checks and balances between different institutions. Revealing the inherent dynamism and sophistication of this indigenous African political system, Legasse also shows in clear and lucid language that the system has had a long and distinguished history, during which the institutions changed by deliberate legislation, and evolved and adapted with time."--Amazon.com.
