The Active Side of Infinity. Simplifying this matter to the extreme, I can say that sorcerers, by means of their discipline, push the predators away long enough to allow their glowing coat of awareness to grow beyond the level of the toes. You have arrived, by your effort alone, to what the shamans of ancient Mexico called the topic of topics.

"Ordinarily, events that change our path are impersonal affairs, and yet extremely personal. My teacher, don Juan Matsus, said this is guiding me as his apprentice to collect what I considered to be the memorable events of my life.... Don Juan described the total goal of the shamanistic knowledge that he handled as the preparation for facing the definitive journey: the journey that every human being has to take at the end of his life. He said that what modern man referred to vaguely as life after death was, for those shamans, a concrete region filled to capacity with practical affairs of a different order than the practical affairs of daily life, yet bearing a similar functional practicality. Don Juan considered that to collect the memorable in their lives was, for shamans, the preparation for their entrance into that concrete region, which they called the active side of infinity." In this book written immediately before his death, anthropologist and shaman Carlos Castaneda gives us his most autobiographical and intimately revealing work ever, the fruit of a lifetime of experience and perhaps the most moving volume in his oeuvre.

Carlos Castaneda goes back through the most memorable events in his life, having been told that he should do this by Don Juan Matus, a Yacqui Indian shaman who became his teacher for 13 years. He has learned that these events, when collected together, form a device that powerfully stirs energy inside the self that has lain dormant. Our daily lives push these caches of energy outside our reach. This method shows us how to redeploy our unused energy.

This book is a collection of Castaneda's key experiences organized in an accessible way. They provide an insight into this tradition and elucidate ideas that occur in Castaneda's previous books.

An essential collection of Stephen Batchelor's most probing and important work on secular Buddhism. As the practice of mindfulness permeates mainstream Western culture, more and more people are engaging in a traditional form of Buddhist meditation. However, many of these people have little interest in the religious aspects of Buddhism, and the practice occurs within secular contexts such as hospitals, schools, and the workplace. Is it possible to recover from the Buddhist teachings a vision of human flourishing that is secular rather than religious without compromising the integrity of the tradition? Is there an ethical framework that can underpin and contextualize these practices in a rapidly changing world? In this collected volume of Stephen Batchelor's writings on these themes, the author explores the complex implications of Buddhism's secularization. Ranging widely--from reincarnation, religious belief, and agnosticism to the role of the arts in Buddhist practice--he offers a detailed picture of contemporary Buddhism and its attempt to find a voice in the modern world.

Millions of readers worldwide have treasured the visionary brilliance of Carlos Castaneda, who first explored the world of the Yaqui Indian sorcerer in *The Teachings of don Juan*. Now, at last, don Juan returns in *The Power of Silence* -- wise, infuriating, capable of working miracles and playing practical jokes, but always seeking the wisdom of the warrior. *The Power of Silence* is Castaneda's most astonishing book to date -- a brilliant flash of knowledge that illuminates the far reaches of the human mind. Through don Juan's mesmerizing stories, the true meaning of sorcery and magic is finally revealed. Honed in the desert of Sonora, the visions of don Juan give us the vital secrets of belief and self-realization that are transcendental and valid for us all. It is Castaneda's unique genius to show us that all wisdom, strength, and power lie within ourselves -- unleashed with marvelous energy and imaginative force in the teachings of don Juan -- and in the writings of his famous pupil, Carlos Castaneda.

Don Juan concludes the instruction of Castaneda with his most powerful and mysterious lesson in the sorcerer's art—a dazzling series of visions that are at once an initiation and a deeply moving farewell.

For us to perceive any of the worlds that exist beside our own, not only do we have to covet them but we need to have sufficient energy to seize them. In this revolutionary book, Carlos Castaneda offers readers the key to this energetic conditioning for the first time, revealing a series of body positions and physical movements that enabled various sorcerers, and their apprentices, to navigate their own sorceric journeys. By sharing this centuries-old wisdom, Carlos Castaneda makes it possible for readers to travel to some of these other realms, which are as real, unique, absolute, and engulfing as our own world. Castaneda offers both a philosophical history of magical passes and an innovative, easy-to-understand instructional format, complete with more than 450 computer-generated illustrations. Written with humor, clarity, and authority, *Magical Passes* further illuminates the true meaning of sorcery and magic.

When I looked up, I shivered. How many stars were in the sky? A million? A billion? Maybe the number was as big as infinity. I started to feel very, very small. How could I even think about something as big as infinity? Uma can't help feeling small when she peers up at the night sky. She begins to wonder about infinity. Is infinity a number that grows forever? Is it an endless racetrack? Could infinity be in an ice cream cone? Uma soon finds that the ways to think about this big idea may just be . . . infinite.

Literary review of the complete works of Carlos Castaneda. Revered by followers and reviled by critics, Castaneda and all his works are given a new, comprehensive interpretation in *Getting Castaneda*. With 12 books, this bestselling American author, philosopher and anthropologist opened a window into another world and era.
