Stay up on the latest in insurance billing and coding with Marilyn Fordney's Insurance Handbook for the Medical Office, 14th Edition. Trusted for more than 30 years, this market-leading handbook equips you to succeed as medical insurance specialist in any of today's outpatient settings. Coverage emphasizes the role of the medical insurance specialist in areas such as diagnostic coding, procedural coding, Medicare, HIPAA, and bill collection strategies. As with previous editions, all the plans that are most commonly encountered in clinics and physicians' offices are incorporated into the text, as well as icons for different types of payers, lists of key abbreviations, and numerous practice exercises that assist you in accurately filling out claim forms. This new edition also features expanded coverage of ICD-10, electronic medical records, electronic claims submission, and the HIPAA 5010 – keeping you one step ahead of the latest practices and protocols of the profession. Key terms are defined and emphasized throughout the text to reinforce understanding of new concepts and terminology. Separate chapter on HIPAA Compliance in Insurance Billing, as well as Compliance Alerts throughout highlights important HIPAA compliance issues to ensure readers are compliant with the latest regulations. Emphasis on the business of running a medical office and the importance of the medical insurance specialist details the importance of the medical insurance specialist in the business of the medical office. Increased focus on electronic filing/claims submission prepares readers for the industry-wide transition to electronic claims submission. Separate chapter on documentation in the medical office covers the principles of medical documentation and the rationales for it. Service to Patient features in most chapters offer examples of good customer service. User resources on the Evolve companion website feature performance checklists, self-assessment quizzes, the Student Software Challenge (with cases on different payer types and an interactive CMS-1500 (02-12) form to fill in). NEW! Expanded coverage of ICD-10 prepares users to code ICD-10 with the planned effective date of October 2015. NEW! Added information on the electronic medical record and electronic claims submission – including information on the HIPAA 5010 – equips users for the transition between paper and electronic methods of medical records and links the CMS-1500 (02-12) form to the electronic submissions process. NEW! SimChart for the Medical Office (SCMO) application activities on the companion Evolve website adds additional functionality to the insurance module on the SCMO roadmap.

compliance, the HITECH Act, health reform of 2010, electronic health records, electronic claims, ICD-10, NUCC standards, Physician Quality Reporting System (PQRS) Incentive Program, Meaningful Use, and CPT 2013. Updated ICD-10 coding information prepares you for the October 2014 ICD-10 implementation date. Updated content on claim forms includes block-by-block explanations and examples for the new CMS-1500 Claim Form. Updated guidelines for the filing and submission of electronic claims include sample screenshots and prepare you for the future of the medical office.

A bestseller for over 25 years, this text helps users excel at all aspects of insurance billing: submitting, tracing, appealing, and transmitting claims. Its comprehensive coverage also includes important information on diagnostic coding, procedural coding, office and insurance collection strategies, Medicare, Managed Care, and more. This edition has been reviewed by industry experts and carefully updated to reflect recent changes in the industry - including the addition of special HIPAA Compliance Alerts throughout the book to help users comply with important governmental privacy regulations. Instructor resources are available; please contact your Elsevier sales representative for details. Icons help students identify each insurance payer with a specific color and graphic, making the learning process more effective. Emphasizes procedural (CPT and HCPCS) and diagnostic (ICD-9-CM) coding and documentation since they are the keystones to obtaining maximum reimbursement. Block-by-block teaching approach organized by payer category for the CMS-1500 claim form facilitates understanding, effective learning, and greater productivity. Detailed examples and samples of completed insurance forms help students see how knowledge is applied in the real world. Accompanying CD-ROM of practice software bound in the back of the book features the CMS-1500 claim form and 10 scored patient case studies with related insurance information to simulate real-life situations. Updated to reflect recent changes in the industry. Special sections highlight areas pertinent to HIPAA regulations.

Realistic, hands-on exercises prepare students to work effectively in the managed care environment with all types of insurance claims. Self-study review questions and complete, competency-based tests are presented. Easily removable sample practice forms are provided, as well as case study information and practice exercises. Available separately.
